

Keri McKay, Allied ASID
Keri McKay Interiors
kerimckayinteriors.com

Keri McKay launched Keri McKay Interiors in 2013 with design services ranging from hourly consultations to full-service interior design. Rather than focusing on a particular style, Keri enjoys creating thoughtful and livable interiors that feel personal to each client and always have a touch of the unexpected. She takes great care in allowing clients to fully express their story while ensuring a functional, comfortable, and richly layered space. Keri is an Allied Member of the American Society of Interior Designers (ASID) and holds a Professional Certificate of Interior Design from Fairfield University. With a CPA license and business degree from Bryant University, she spent the first ten years of her professional career in the finance industry. "I find it only natural to implement designs that make the most of each client's budget and professionally manage the entire design process," says Keri.
